Reading the activity feed

12. My Profile & Notifications

Updating details · Changing password · Notifications

1. Getting Started

3 articles

How to log in

- 1 Go to **nedsdrishti.in**
- 2 Enter your email and password
- 3 Click **Sign In** — you'll land on your Dashboard

NOTE If you forget your password, ask your Agency Owner to reset it from Settings → Team.

Understanding your role

Every user has a role that controls what they can see and do. Your role is shown in the sidebar beneath your name.

Owner	Full access — billing, team management, settings, all clients.
Account Manager	Manage clients, content, audits, and reports. Cannot invite users or change settings.
Content Creator	Create and edit posts, use AI Studio, manage media. Cannot delete clients.
SEO Analyst	Run audits, fill platform checklists, view analytics. Read-only on content.
Client	Sees their own portal only — action items, messages, posts, platform scores, and PDF reports.

Navigating the app

The sidebar on the left is your main navigation. Click the hamburger icon (≡) in the top-left to expand or collapse it.

- 1 **Dashboard** — agency-wide stats at a glance
- 2 **Clients** — manage all client accounts
- 3 **AI Studio** — 10 AI-powered tools for content, research, and audits
- 4 **Content** — compose, schedule, and manage posts
- 5 **Analytics** — reports, performance graphs, and AI digest
- 6 **Optimize** — platform-by-platform SEO checklists with AI rewrite
- 7 **Invoices** — create and manage client invoices (Owner · Account Manager)
- 8 **Activity** — full audit trail of team actions (Owner only)
- 9 **Settings** — branding, API keys, team, webhooks (Owner only)
- 10 **Help & Guide** — this page

TIP Click your name at the bottom of the sidebar at any time to open your Profile page and update your details or password.

2. Client Management

7 articles

Adding a new client

Owner · Account Manager

- 1 Go to Clients → click **New Client** (top-right)
- 2 Fill in: Business Name, Industry, Website URL, and Description
- 3 Add Social Handles (optional) — Instagram, Facebook, LinkedIn, etc.
- 4 Click **Save Client**

NOTE The client starts as **ACTIVE**. You can change status to **INACTIVE** or **PAUSED** from the client detail page.

Assigning team members to a client

Owner · Account Manager

- 1 Open the client → click the **Team** tab
- 2 Select a team member from the dropdown and click **Assign**
- 3 To remove someone, click the trash icon next to their name

Client health scores

- 1 Green (≥70%) — Profiles well optimized
- 2 Yellow (40–69%) — Some platforms need attention
- 3 Red (<40%) — Profiles need significant work

Sending a client invite

Owner

- 1 Go to **Settings** → **Team**
- 2 Enter the client's email and select role: **Client**
- 3 Click **Invite** — they receive an email with a one-time login link

Client onboarding questionnaire

Owner · Account Manager

Send a branded, public questionnaire link to a new client so they can fill in their business details, goals, social handles, and brand voice — no login required.

- 1 Open the client → go to the **Reports** tab
- 2 Click "**Send Onboarding Link**" — emails a branded form to the client's contact email
- 3 The client opens the link and completes 4 steps: Business basics, Social handles, Goals & context, Brand identity
- 4 On submission, their data is saved to the client record automatically
- 5 Onboarding data (goals, brand tone, words to avoid, location) becomes available to AI tools

NOTE The link expires after 7 days. Resend from the Reports tab to generate a fresh token.

TIP After the client submits, check the Overview tab — brand tone, words to avoid, and primary location are pre-populated.

Action Items — assigning tasks to clients

Owner · Account Manager

Action Items are tasks or deliverables assigned to a client. They appear both in the client's portal and in your agency view.

- 1 Open the client → click the **Action Items** tab
- 2 Click "**New Action Item**" — enter title, optional description, and optional due date
- 3 Click **Create** — the client receives an email notification
- 4 Click **Start** to move to In Progress, or **Done** to mark as Completed

NOTE Overdue items are highlighted with a red left border. Status flow: PENDING → IN PROGRESS → COMPLETED.

Messaging clients in-app

Send and receive messages with a client directly inside the platform. Both agency team members and the client can initiate the conversation.

- 1 Open the client → click the **Messages** tab
- 2 Type a message and click **Send** (or press Enter)
- 3 The message thread refreshes every 30 seconds automatically
- 4 The client receives an email notification when a new message arrives
- 5 Client side: open their portal → scroll to the Messages section

TIP Use Shift+Enter to add a line break without sending the message.

3. Content Studio

7 articles

Creating a new post

- 1 Go to **Content** → **New Post**
- 2 Select the Client from the dropdown
- 3 Choose one or more Platforms (LinkedIn, Instagram, etc.)
- 4 Write your Caption in the text area
- 5 Add Hashtags — type and press Enter or comma to add each one
- 6 Optionally set a Scheduled Date & Time
- 7 Click **Save as Draft** or **Save & Schedule**

Post approval and publish workflow

Every post moves through: **Draft** → **Pending** → **Approved** → **Published**.

- 1 Content Creator saves a draft (approval status: Pending)
- 2 Account Manager or Owner reviews the post and clicks **Approve** or **Reject**
- 3 On approval, the creator gets a bell notification
- 4 Once approved, Owner or Account Manager clicks **Publish** — fires any post.published webhooks

NOTE A post must be Approved before it can be Published. You cannot publish a Pending or Rejected post.

Content Calendar

- 1 Go to **Content** → **Calendar**
- 2 The calendar shows all scheduled posts by date
- 3 Click any date with a dot to see that day's posts
- 4 Click a post to open the editor

Ideas Engine

- 1 Go to **Content** → **Ideas**
- 2 Select a client and enter a topic or keyword
- 3 Click **Generate** — AI produces a set of post ideas
- 4 Click **Save** on any idea to keep it; click **Use** to load it into the composer

Media Library

- 1 Go to **Content** → **Media**
- 2 Select a client from the dropdown
- 3 Click **Upload Files** to add images or videos (max 20 MB each)
- 4 Images are auto-converted to WebP and resized to max 1920px
- 5 Click the red trash icon on any asset to delete it

NOTE Media is stored per-client. You must select a client before uploading.

4. AI Studio

10 tools

Caption Generator

- 1 Go to **AI Studio** → **Caption Generator**
- 2 Select client, platform, and tone
- 3 Enter a brief topic or key message
- 4 Click **Generate** — get 3 caption variations
- 5 Click **Use** on any caption to load it directly into the Content Composer

Hashtag Research

- 1 Select a client and enter a niche keyword
- 2 Click **Generate** — AI returns a ranked hashtag list with volume estimates
- 3 Click **Copy All** or copy individual hashtags
- 4 Click **Save as Set** to store them for future posts

Profile Bio Writer

- 1 Select client and target platform
- 2 Enter key services, tone, and USPs
- 3 Click **Generate** — receive a character-count-optimised bio
- 4 Copy and paste into the platform profile

Audit Report Writer

- 1 Select a client and choose a completed audit
- 2 Click **Generate Report** — AI writes a full narrative audit report
- 3 Review and edit inline
- 4 Click **Download PDF** to produce a client-ready PDF

Content Repurposer

Turn one piece of content into 5 platform-optimised formats at once.

- 1 Go to **AI Studio** → **Content Repurposer**
- 2 Select a client (optional — adds brand context)
- 3 Paste your original content into the input box
- 4 Select target platforms
- 5 Click **Repurpose** — AI rewrites the content natively for each platform

Audience Persona Builder

Generate a detailed ideal customer persona with demographics, psychographics, pain points, content triggers, and a messaging guide.

- 1 Go to **AI Studio** → **Audience Persona Builder**
- 2 Select a client
- 3 Enter product/service description, industry, and audience notes
- 4 Click **Build Persona** — saved automatically to the client's record

Competitor Analyzer

Analyse a competitor's social profile and get a gap analysis with actionable improvement recommendations.

- 1 Go to **AI Studio** → **Competitor Analyzer**
- 2 Select the client and enter the competitor's profile URL and platform
- 3 Click **Analyze** — AI audits key profile elements and identifies gaps
- 4 Receive a scored comparison with specific recommendations

Posting Time Optimizer

Get an evidence-based weekly posting schedule grid for multiple platforms, tailored by audience location.

- 1 Go to **AI Studio** → **Posting Time Optimizer**
- 2 Select platforms (LinkedIn, Instagram, Facebook, Twitter, YouTube, TikTok, Pinterest, WhatsApp, Email, Google Ads)
- 3 Choose audience location (India, Global, US, UK, UAE, Australia) and posts per week
- 4 Click **Generate Schedule** — colour-coded 7-day × 14-hour grid appears
- 5 Green = Optimal · Yellow = Acceptable · Grey = Avoid
- 6 Click **"Get AI Custom Advice"** (after entering industry) for tailored tips
- 7 Click **CSV** to export recommended time slots

Engagement Rate Analyzer

Calculate engagement rate, benchmark it against industry standards, and receive AI recommendations to improve it.

- 1 Go to **AI Studio** → **Engagement Rate Analyzer**
- 2 Select platform and enter followers, avg likes (required), and optionally comments, shares, and avg reach
- 3 Add industry for accurate benchmarks (e.g. Fashion, SaaS, Restaurant)
- 4 Click **Analyze Engagement**
- 5 See your engagement rate % with a rating: Excellent / Good / Average / Below Average / Poor
- 6 View benchmarks and percentile — "Better than X% of accounts in your industry"
- 7 AI recommendations appear as cards with **Impact** and **Effort** ratings

TIP Results are cached — re-running with the same inputs returns instantly. Change any input to force a fresh analysis.

5. Audit Module

2 articles

Running a new audit

Owner · Account Manager · SEO Analyst

- 1 Go to Clients → open a client → click **Audits**
- 2 Click **New Audit** and select the audit type
- 3 The system generates a checklist of items to review
- 4 Work through each check — mark Pass, Fail, or N/A
- 5 Add notes to any item for client-facing context

Completing and sharing an audit

- 1 Once all items are reviewed, click **Mark Complete**
- 2 The audit locks and a notification is sent to assigned team members
- 3 Go to **AI Studio** → **Audit Report Writer** to generate a PDF narrative
- 4 Download the PDF and share with the client

NOTE Completed audits cannot be edited. Create a new audit if you need to re-check.

6. Optimize

3 articles

Platform optimization checklists

Optimize tracks how well each client's social profiles are set up — bio, cover image, contact info, posting frequency, and more.

- 1 Go to **Optimize** → select a client
- 2 See all platforms with a progress bar for each
- 3 Click a platform to open its checklist
- 4 Check off each completed item — progress saves automatically
- 5 The client health score on the Clients page updates in real time

Reading the score

- 1 $\text{Score} = \text{checked items} \div \text{total items} \times 100$
- 2 Green $\geq 70\%$ · Yellow 40–69% · Red $< 40\%$
- 3 Aim for 100% on primary platforms before moving to secondary ones

AI Profile Rewrite — 3 AI variants

For any checklist item that contains written copy (bio, headline, about section, ad copy), request 3 AI-written variants and apply the best one.

- 1 Open a platform checklist (e.g. LinkedIn, Instagram, Google Business Profile)
- 2 Find a text-based check (e.g. "LinkedIn Headline", "Instagram Bio")
- 3 Click the **"AI Rewrite"** button next to that check
- 4 A slide-in panel opens showing 3 AI-generated variants, each within the platform's character limit
- 5 Click **"Use This"** on any variant to copy it

TIP AI rewrites use the client's brand name, industry, and onboarding data automatically. Complete the onboarding questionnaire first for best results.

NOTE Available for: LinkedIn Headline & About · Instagram Bio · GBP Description & Review Responses · YouTube About & Titles · Twitter/X Bio · TikTok Bio · Google Ads Copy · Email Subject Lines · WhatsApp Auto-Reply.

7. Analytics & Reports

5 articles

Sending a client report by email

Owner · Account Manager

- 1 Open a Client → go to the **Reports** tab
- 2 Click "**Send Report Now**" — generates a PDF and emails it to the client's contact email
- 3 A confirmation toast appears once sent

NOTE SMTP must be configured in Settings → API Keys before email sending works.

Scheduling automated monthly reports

Owner · Account Manager

- 1 Open a Client → go to the **Reports** tab
- 2 In the Schedule dropdown, select **Monthly**
- 3 Click **Save Schedule** — system auto-emails PDF on the 1st of each month
- 4 To stop, set schedule back to None

AI Weekly Digest

Owner

Get an AI-written narrative summary of your agency's activity — clients, posts, audits, invoices, and top scores.

- 1 Go to **Analytics** → scroll to the "AI Weekly Digest" card
- 2 Click "**Generate Digest**" — Claude analyses all agency data and writes a narrative summary
- 3 Click "**Email Digest**" to send it to the Owner's registered email

8. Client Portal

4 articles

What clients see in their portal

- 1 **Welcome banner** — agency name, client name, domain, and overall score ring
- 2 **Stats row** — avg platform score, active platforms, approved posts, action items count
- 3 **Platform Scores** — progress bars for each platform
- 4 **Latest Audit** — score ring and date of most recent audit
- 5 **Action Required** — pending/in-progress action items with due dates
- 6 **Messages** — in-app thread with agency team
- 7 **Approved Content** — recent posts approved for publishing

TIP The portal uses your agency's brand colours and logo set in Settings → Branding.

Downloading a report (client view)

- 1 Log in — land on the portal
- 2 In the top-right of the welcome banner, click "**Download My Report**"
- 3 A branded PDF is generated and downloaded with all current platform stats

Viewing action items (client view)

- 1 Log in as a client → scroll to the "**Action Required**" section
- 2 All PENDING and IN PROGRESS items appear with due dates
- 3 Overdue items are highlighted in red

NOTE Clients cannot create or close action items. Contact your Account Manager to update them.

Messaging the agency team (client view)

- 1 Log in → scroll to the **Messages** section
- 2 Type a message and click **Send** (or press Enter)
- 3 Your account manager receives an email notification
- 4 The thread refreshes every 30 seconds automatically

9. Settings

6 articles

Agency branding

Owner

- 1 Go to **Settings** → **Branding**
- 2 Upload your agency logo (PNG or SVG, max 2 MB)
- 3 Set primary and secondary brand colours using the colour pickers
- 4 Click **Save Branding** — all PDF reports will use these colours and logo

Connecting API keys

Owner

- 1 Go to **Settings** → **API Keys**
- 2 Enter keys for: SMTP email, Google Analytics, Meta Business, etc.
- 3 Keys are stored AES-256 encrypted — nobody can read them back
- 4 Click **Save Keys**

NOTE Never share API keys over Slack or email. Use this Settings page only.

Setting up webhooks

Owner

Webhooks let you send real-time HTTP notifications to external tools (Zapier, Slack, your own systems) when events happen in the app.

- 1 Go to **Settings** → **Webhooks** → **Add Webhook**
- 2 Enter a name and the endpoint URL
- 3 Tick the events to subscribe to
- 4 Click **Create** — a signing secret is generated automatically

Available events: post.approved · post.rejected · post.published · invoice.sent · invoice.paid · audit.completed

10. Invoices

4 articles

Creating an invoice

Owner · Account Manager

- 1 Go to **Invoices** → **New Invoice**
- 2 Select the client from the dropdown
- 3 Add line items: description, quantity, and rate
- 4 Set Issue Date and Due Date; add Tax % if applicable
- 5 Click **Save Invoice** — saved as Draft with auto-generated number (INV-YYYY-NNN)

Invoice status workflow

Invoices move through: **Draft** → **Sent** → **Paid** (or Overdue).

- 1 **Draft** — created but not shared with client
- 2 **Mark Sent** — fires invoice.sent webhook
- 3 **Mark Paid** — once payment received; fires invoice.paid webhook
- 4 **Mark Overdue** — if due date passes without payment

NOTE Only Draft invoices can be deleted. Sent, Paid, and Overdue invoices are permanent records.

11. Activity Log

1 article

Reading the activity feed

Owner

The Activity Log gives you a full audit trail of every significant action taken in the app — posts approved, invoices created, audits completed, and more.

- 1 Go to **Activity** in the sidebar
- 2 Events are grouped by Today, Yesterday, and earlier dates
- 3 Each entry shows: who did it, what they did, which resource was affected, and when
- 4 Use the filter tabs to filter by action type

NOTE The Activity Log is read-only and cannot be edited or deleted. It is the source of truth for team accountability.

12. My Profile & Notifications

4 articles

Updating your name or email

- 1 Click your name at the bottom of the sidebar — opens the Profile page
- 2 Under Personal Details, edit your Full Name and/or Email Address
- 3 Click **Save Changes**

Changing your password

- 1 Go to Profile → scroll to **Change Password**
- 2 Enter your Current Password, then your New Password (minimum 8 characters)
- 3 Confirm the new password and click **Change Password**

Understanding notifications

The bell icon in the top-right shows your unread notification count. Key notifications:

- 1 **Post Approved** — your post was approved by a manager
- 2 **Post Rejected** — your post was sent back for revision
- 3 **Audit Completed** — an audit you're assigned to was completed

NOTE Notifications refresh every 30 seconds automatically.
